

Success Story

My Story: Karen Rostagno

18 years ago, when my husband and I first looked at ACN we were running a Personal Development business across Australia and New Zealand. We were always on the road and never home with our families. What we wanted was the opportunity to have both time freedom and financial freedom in our lives. We got started straight away as we saw ACN was the answer to this dilemma. We saw that there was a system in place to follow to achieve success in ACN and that is exactly what we did.

We achieved the position of Regional Vice President in 22 months and 4 years later achieved the Senior Vice President position. We were not exceptional in any way but had a burning desire to turn our dream into a reality.

The success we had was due to the fantastic training and support that ACN provides to its Independent Business Owners.
