

Success Story

My Story: Melanie DeCull

Regional Director. Perth, Western Australia.

When I saw ACN I was building my own traditional business in the entertainment industry, working for someone else at the same time and single mum to 3 young kids.

ACN has allowed me to create an additional income in the cracks of my busy schedule, allowed me to drop the working for someone else scenario and whilst working from home being able to be, most importantly - Mum. I now have that secondary income and peace of mind in being able to pay the bills, regardless of whether I have a partner or not.

During the covid pandemic the events that I work with in my traditional business have suffered to various extremes. The one thing that became very clear is my ACN business was never negatively impacted, in fact it only improved! This business is pandemic proof!

Forever grateful for this brilliant ACN opportunity.
